#### STATE, CITY AND CORPORATION FINANCES.

#### EXPLANATION OF STOCK AND BOND TABLES.

1. Prices of the most Active Stocks and Bonds are given in the "Bankers' Gazette," previously. Full quotations of all other securities will be found on preceding pages.

2. Government Securities, with full information in regard to each issue, the periods of interest payment, size or denomination of bonds, and numerous other details, are given in the U.S. Debt statement published in The Chronicle on the first of each month

The Chronicle on the first of each mouth

3. City Bonds, and Bank, Insurance, City Railrond and Gas Stocks, with quotations, will usually be published the first three weeks of each month, on the page immediately preceding this.

4. The Complete Tables of State Scentitics, City Scentics, and Hailrond and Miscellaneous Stocks and Bonds will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatly stitched in with the usual edition and furnished to all regular subscribers of The Chaonicle.

#### INVESTMENTS.

In regard to investments of money in mortgages upon real estate, we have heretofore called attention to a company formed for the express purpose of facilitating such investments, by adding the quality of easy negotiability to all the other wellknown advantages of this popular form of investment.

The great objection to real estate mortgages, particularly among business men, has heretofore been the legal expense of searching titles, &c., and the difficulty of using them as collateral security for loans, or of selling them readily in case money is wanted in an emergency. The Equitable Trust Company, whose card is published in our advertising columns, remedies these objections by taking all the responsibility of examining the property and searching the title, and as an evidence of its care in these respects places its own endorsement on the bonds secured by the mortgage. It appears to us that these bonds thus secured, and having the guarantee of a company with a paid up capital of \$1,000,000, and managed by officers and directors who are well known as among the most honorable and substantial financial men of New York, should be considered a favorite security. More information as to the practical working of the company's business can be obtained at its office, 76 Cedar street, from Mr. Jonathan Edwards, the President.

The Union Pacific Railroad Company advertises the payment of March interest on its income bonds, and it must be remembered by holders that the bonds are required to be presented this time as well as the coupons. Mr. Ames stated in his speech this week that under the Oakes Ames contract the actual cost in meney of building the road was about \$70,000,000, and the actual profit on this expenditure, estimating the securities and stock at their market value when received in payment, was less than \$10,000,000.

Chesapeake and Ohio gold 6s have been advanced to 874. The Canada Southern Road is finished from the Ningara to the Detreit Rivers. The 7 per cent gold bonds of the connecting line Chicago and Canada Southern are selling at 90. A statement of the earnings of the Chicago, Danville and Vincennes road for last year will be found elsewhere.

As to the matters of railroad and financial news given below, it is to be observed that several of the items appeared more than a week age, but the publication of them was prevented in last week's CHRONICLE in consequence of the space given for our extended monthly tables.

Virginia Finances.—The Baltimore Sun says the bill for the purpose of previding for the payment of the interest on the Virginia State debt, the malu points of which have been heretofore published, will be more fully understood by the following conferpublished, will be more fully understood by the following conference and agreement between the legislative committee and bondholders, lately in convention at Richmond. The agreement submitted by the committee is, according to the report of the Whig, to provide by proper bill for the payment of interest due 1st January and 1st July, 1873, as follows: Pay at rate as follows: Four per centum per annum on funded debt; four per certum per annum on two thirds unfunded debt; and at the same rate on five per cent bonds. For each coupon redeemed to issue a certificate for one third to the following effect: "Due by the State of Virginia to the bearer (one-third amount of coupon redeemed) without interest."

One of the bondholders desired to know if the legislative com-

One of the bondholders desired to know if the legislative committee had any explanations to add to the propositions tendered. He would like to know what was to be done with the matured coupons, which were the chief difficulty in the way of an amicable

adjustment.
The committee said that the proposition relates to and embraces only the interest for this year (1873), beginning 1st of January. And while they would be glad to provide for the past due coupons and for the whole unpaid interest, the proposition only offers to do what they think the State can now do and no merc. The gentleman representing the bendholders added that it will be found that these

coupens of 1872, which the proposition submitted does not provide for at all, will not only prove of great embarrassment to the State treasury of themselves, but the fact that they are unprovided for will disinctine many bondholders to come into any arrangement which may be agreed upon here as to the interests of 1571.

The committee stated that this scheme, which merely embraces the inferest of 1873, is an experiment which they can undertake with some prospect of auccess. They do not make any proposition as to the past, leaving that to take care of itself, and only seeking to reach an accommodation of the present. They could not undertake anything which may entail an increase of taxes, which view was finally agreed to by the bondhollers present.

Alabama Finances. - Montgomeny, February 21. - The House passed the bill authorizing \$1,500,000 in bonds to pay outstanding liabilities, including past due interest. A bill has also passed both Houses, and been approved by the Governor, increasing the rate of taxation fifty per cent.

Georgia State Finances,—The Legislature of Georgia has adjourned without disposing of the bond question. The proposi-tion of Co. Snead, representing the bondholders, was that the State should pay \$1,400,000 to the holders of gold bonds, and to others certain amounts, making a total of \$1511,000 in seven per cent State bonds at ninety cents on the dollar, and due at from ten to lifteen years,

Hlinois Railroads,—The Supreme Court of Illinois has just rendered a decision which is likely to stimulate the excitement in the West on the transportation question. It has reversed the celebrated decision of Judge Typton of McLean County, affering the constitutionality of the State law prohibiting railroad com-panies from charging discriminating toll rates, and sustains the appeal of the Chicago & Alten Radroad Company against it.

Daily Bulletin.

Alabama & Chatlanooga Railrond.—Governor Lewiss submitted to the legislature the provisional contract for the sale of this road, which is executed to the New Orleans & Northwestern Railroad Company. The Montgomery Mail says: The company, represented by Mr. Ingraham and a set of highly respectable men, as we are informed on good authority, at New Orleans, are either actually constructing or preparing to construct a railroad from New Orleans to Meridian, Miss., and they desire to obtain possession of the Alabama and Chattanooga road with its terminus at Chattanooga, and there connecting with the Great Eastern and Western the Alabama and Chattanooga road with its terminus at Chatta-nooga, and there connecting with the Great Eastern and Western lines to Louisville, Cincinnati, and St. Louis in one direction, and Knoxville, Baltimore, Philadelphia and New York in the other. The New Orleans Company pay no back interest, but they assume all interest for the future. This is about the best, we imagine, that can be done.

The Atlantic & Great Western Railroad.—The stockholders of the Atlantic and Great Western Italiway, at a meeting last week, ratified the negotiations recently completed by the man-agers of the road for the lease of the Pennsylvania Petroleum Railway, the Pithole Valley Railrond and the Chenango and Alleghany Railroad. The Pennsylvania Petroleum Railway, which is to run from Titusville, Pa., to Cambridge, on the Atlantic & Great Western, is only partly built.

To obtain the necessary funds for leasing these different roads, the Atlantic & Great Western Company, through its London agents, Messrs. Bischoffsheim & Goldschmidt, have just aggotiagents, Messrs. Bischoffsheim & Goldschmidt, have just acgotiated a loan of \$4,500,000 on seven per cent rental trust bonds, being part of \$6,360,000 specially secured by the rental of the Pennsylvania Petroleum Railway, the Pithole Valley Railroad, and the Chenango and Allegheny Railroad. The bonds are in the denomination of \$1,000 each, payable in thirty years, in New York or London, by an accumulative sinking fund of one per cent per annum. The interest is payable half yearly, the first payment falling due on July 1, 1873. The sinking fund will be applied by half yearly drawings on the lat of May and lat of November, and the bonds so drawn will be paid on the lat of July and 1st of January following each drawing.

Notice has been given that a further issue of \$1,860,000 will soon be made for acquiring remaining interest in the Chenango and Allegheny Railroad and for the extension of the Pennsylvania Petroleum Railroad to Lake Erie.—Erening Post.

United States Rolling Stock Co.—The annual report of the

United States Rolling Stock Co.—The annual report of the President, Gen. George B. McClellan, (Dec. 31, 1872,) states:
"At the date of my first report 1 informed the abareholders that the Board of Trustees had decided to issue the balance (\$2,500,000) of the capital stock of the company originally subscribed for in order to meet the payments falling due under the contracts already entered into for the construction of stock, and which then amounted to \$1.960,366 60, being an excess of

\$2,460,366 60 over the paid up capital.
"I have to congratulate the shareholders upon the success which has attended the issue of the second hall of the capital

stock.

"On the 4th instant (January, 1873) Messrs, Bischoffsheim & Goldschmidt, the London agents of the company, notified the Board of Trustees that all the shares had been taken, thus enabling them to place at the disposal of the company the amounts paid in as provided for by the prospectus.

"On the 20th of December last the Board of Trustees declared a dividend of 5½ per cent, payable on the 15th instant, making, with that previously declared and paid, a total dividend for the year of 8½ per cent, a very satisfactory result as it must be borne.

year of 81 per cent., a very satisfactory result, as it must be borne in mind that none of the stock has earned a full year's rental. A glanco at the statements will give a clear and precise idea of the progression of the deliveries and of the rental earned there. Cars &c., under

"The payments for stock amounted, on the 30th of June, 1872, \$735,361 60; while on the 31st of December they foot up

The company owned on the same date:

have been declared and paid.

The expenses during the year, including those incurred in the organization of the company, amount to \$51,851 71, which amount will be somewhat increased when some payments for which vouchers have not as yet been presented are made.

The Erie and Atlantic & Great Western Railroads.—The Directors of the Erie and Atlantic & Great Western Railroads announce that they have secured a majority of the stock of the Cleveland, Columbus, Cincinnati and Indiana Central Railroad, and at the annual election in March will assume control. The Cleveland, Columbus, Cincinnati and Indiana Central is an important feeder of the Lake Shore Road, joining it at Cleveland, and its present capital is \$15,000,000.

Erie Railway.-The following resolutions were adopted by the New York State Senate:

the New York State Senate:

Whereas, It is alleged that large sums of money have heep paid out of the treasury of the Erle Railway Company as connsel fees, or for other services connected with its interests, pending before the Legislature of 1872, and especially in procuring the repeal of the act commonly known as the "Classification Act;" and
Whereas, It is further alleged that large sums of money were paid to prevent the passage of said act; and
Whereas, It is alleged and charged that the change of directors and removal of officers of the Eric Railway Company, in the month of March last, were effected and produced by corrupt means; therefore,
Resolved, That a committee of five be appointed by the Chair to investigate the truth of falsity of such statements, with power to send for persons and papers.

The following circular (No. 3) has been issued by the Erie Railway Company, dated Feb. 15:

"It is hereby directed that all payments of interest on registered

bonds and of dividends on capital stock be made by the issue of the company's checks, payable to the order of the registered owners of the securities; and that such checks, if not applied for by the owners in person, or by their request sent to their post office address, be delivered to the agents or attorneys who may present proper orders or powers for the collection of the moneys. But in no case, as a rule, shall the currency be paid or the checks be drawn to the order of such agents or attorneys."

W. P. SHEARMAN, Treasurer.

Eric and Boston H. & E.—The Eric Railway Company has filed a bill in equity in the United States District Court of Mas sachusetts, to restrain the trustees of the Boston, Hartford and Eric Railroad from forming any new organization affecting the existing status of the corporation, by foreclosure of the Berdell mortgage; also, from selling, assigning, or otherwise disposing of the franchises of the road under such foreclosure.

Central RR. of New Jersey and Delaware, Lackawanna Western.—The following is a copy of the act passed recently by the New Jersey Legislature, in reference to the agreement of March 16, 1872:

March 16, 1872:

An act to validate a certain agreement between the Central Railroad Company of New Jersey and the Delaware, Lackawanna & Western Railroad Company. Be it enacted by the Senate and General Assembly of the State of New Jersey:

That the agreement made and executed by and between the Central Railroad Company of New Jersey and the Delaware, Lackawanna & Western Railroad Company, dated the 16th day of March, 1872, and which, on the 11th day of October, 1872, was recorded in the office of the Secretary of State, shall be and the same is hereby confirmed and declared to be a valid agreement, any law to the contrary notwithstanding, and the said parties to said agreement may exercise all the powers necessary to give effect to the purposes, objects and intentions thereof.

And be it enacted that this shall be a public act, and take effect immediately.

Last autumn the Central Railroad contrary to the agreement.

Last autumn the Central Railroad, contrary to the agreement, declared a dividend on its own stock, and inasmuch as the agreement had not been made matter of record within the time specified by law, the Chancellor decided that it was null and void. Up to the present time, therefore, they have conducted their business separately. The new law is simply a special act declaring the agreement a good one.

Delaware & Hudson Canal.—The following important circular has been issued, dated February 20:

To provide means for the completion of the line of railroad now under conatruction on the west shore of Lake Champlain, and for other purposes connected with the extension of the business of the company, the Board of Managers have decided to issue the remaining fifty thousand shares of the capital stock, as authorized by the stockholders at the annual meeting held May 12, 1868.

You are hereby notified that, in pursuance of the ordinance adopted by the stockholders, there will be apportioned to every person who shall be a stockholder on the 1st day of April next, one share for every three then standing in the name of such person on the books of this company.

The stock will be issued at par, and must be paid in cash to the Treasurer of the company, in instaiments, as follows:
Twenty-five dollars per share on the 15th day of April next.
Twenty dollars per share on the 15th day of July.
Twenty dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and
Fifteen dollars per share on the 15th day of Junnary, 1874; and

.....\$3,351,040 Making a total of..... Of which one-half was paid in cash and one-half in credits on account of railroad bond indebtedness to the Government. account of rairoad and indepteuness to the Government. In Quartermaster-General estimates that the cost of moving the same troops and supplies by stage and wagon would have been \$9,850,-135, showing an estimated saving to the Government by the rail-road transportation of \$6,507,283, or about sixty-six per cent.

New Bedford and Taunton.—The New Bedford Standard says the New Bedford and Taunton corporation held a meeting last week and voted to ratify the proposition of the Directors to sell out to the New Bedford Railroad Company, in-

stead of the Boston, Clinton and Fitchburg Company, as voted on 27th November. This was only a matter of form, as the New Bedford Railroad Company is to lease its property to the Boston,

Clinton and Fitchburg.

Canada Southern.—The last rail on the Canada Southern Rail. Canada Southern.—The last rail on the Canada Southern Railroad was laid Feb. 20, and the entire line is now completed from
Buffalo to Toledo and Detroit. The length of the main line and
branches is 292 miles, and the road is laid with steel rails and has
no grade above 15 feet to the mile. This is the eastern link of
the new route from Buffalo to Chicago, the western link being
the Chicago and Canada Southern, which it is expected will be completed the coming summer.

The Board of Directors of the Canada Southern Railway have appointed Mr. William H. Perry as General Freight Agent of that important line. The Buffalo Commercial says they could not have selected a better man for the place.

Pennsylvania Railroad.—The Legislature recalled from the Pennsylvania Kailroad.—The Legislature recalled from the hands of the Governor the bill, which had passed the Legislature unanimously, authorizing the company to increase its capital and bonded debt to an unlimited amount, and substituted another, which is now a law, authorizing the present stock and bonds of the company to be doubled. By the last annual statement of Feb. 6, 1872, the company was allowed to issue in capital stock \$55,000,000, consequently the present authorized capital is \$110,000,000.

Wilmington, Charlotte and Rutherford Railroad.—Wilmington, N. C., Feb. 20.—The first mortgage bondholders of the Wilmington, Charlotte and Rutherford Railroad Company have obtained a decree of foreclosure in the Superior Court in this county. The bondholders compromised with a number of creditors of the road who were resisting the foreclosure. C. M. Steadman, E. E. Burruss and John D. Taylor are appointed commissioners to sell the road after giving forty days' notice. The bondholders say they wil complete the road to Charlotte by Jan. 1, 1874 1874.

Chicago, Danville & Vincennes Railroad.—The financial agents, Messrs. W. B. Shattuck & Co., remark as follows in their annual statement: "It should be borne in mind that this was a hard year for a new railroad, for not only did it have to work up and develop its business, but the strikes in the coal mines (not yet settled) had a peculiarly disastrous effect upon our traffic, as coal is the source from which we expect a large proportion of our earnings. It is further to be considered that our earnings, thus far, have been entirely from the 132 miles constituting the Illinois Division, and that the Indiana Division, running direct to the coal mines, and therefore ensuring large and profitable coal freights, has not yet been in condition to earn anything. Not withstanding these disadvantages, the gross earnings of the road, as shown in the following detailed statements, have been \$627, as shown in the following detailed statements, have been \$02.5930.32, the operating expenses (including current interest and exchange, legal expenses and reuts, which are not generally reported among operating expenses), \$350,077 54, leaving as net earnings \$277,852 78, or \$2,104 94 net per mile. As the interest charge on the bonded debt of the 132 miles (\$175,000 gold) is about \$1,491 40 per mile (currency), there is a surplus, after paying all expenses and interest upon bonds, of \$613 54 per mile.

Vermont Central Railroad.—A number of the Vermont Central first mortgage bondholders have applied to the Hon. Homer E. Boyce, Chancellor, for the removal of the trustees and man agers and the withdrawal of the road and its franchise from their

control. The petiton was placed on file. Counsel for the Vermont and Canada Railroad have also filed a similar petition.

The Chicago & Alton.—The annual report for 1872 shows: 
 Capital atock
 \$11,355,300
 Expenses
 3,277,178

 Bonds and other obligations
 16,771,300
 Income
 2,336,103

 Earnings
 5,156,325
 Disbursements
 2,022,330

The gross receipts from traffic were about 2 %-10 per cent less than those of the preceding year. The net receipts were about 14½ per cent less than those of the preceding year.

The operating expenses of the line (exclusive of taxes) amount

to sixty-one per cent of gross receipts, including taxes 63 6-10 per cent. During 1871 the operating expenses were 56 13-100, and 58 36-100 per cent respectively.

Pennsylvania Bonds.—Philadelphia, Feb. 27, 1873.—A dispatch from Harrisburg reports unofficially that the Commissioners of the Sinking Fund have resolved to pay, on presentation, \$1,250,000 of the five, ten and six per cent bonds of the Commonwealth, being certificates of \$5,000 and under, and to stop the interest thereon after ninety days' notice.

—The Kunsas City, St. Joseph and Council Bluffs Railroad has been mortgaged for \$8,000,000, to provide funds for the better equipment of the road, to procure additional grounds to pay floating liabilities and to provide for contingencies.

-At the annual meeting of the Consolidation Coal Company the —At the annual meeting of the Consolitation Coal company the following officers were elected for the ensuing year: President, Allan Campbell; Directors, W. H. Aspinwall, Wm. M. Evarts, Wm. H. Neilson, Wm. Whitewright, Jr., Warren Delano, A. Narrie, D. Stewart, Henry A. Mott, James Roosevelt, G. B. Warren, Jr.

Onleksilver Mining Co.—At the annual meeting of the stock-holders on Wednesday the following Directors were chosen: Daniel Drew, James S. Thayer, James H. Banker, A. B. Baylis, Daniel Drew, James S. Innyer, James H. Banker, A. B. Bayns, E. D. Stanton, E. N. Robinson, Engene Kelly, Edwin Hoyt, Geo. G. Pride, Ludlow Patton, James D. Smith. Subsequently the following officers were chosen for the ensuing year: Daniel Drew, President; James S. Thayer, Vice-President; Engene N. Robinson, Treasurer; David Mahany, Secretary. The annual report of the company shows that the total product of the mine for the was sold for \$937,886 gold. The net profits, including rents, amounted to \$451,759 17. In the expense account \$100,000, the cost of tunnelling and prospecting, was included. The report

shows that the company has no floating debt; that It has on hand \$460,000 in cash and \$115,000 worth of quicksilver and supplies.

The quicksilver produced—last year was sold and delivered under contract at \$31 per flask tor the first three months, and at \$50 50 per flask during the remaining nine month .

The R. R. Gazette gives the following:

Spartenburg & Union.—The purchasers of this road at the recent sale were Alfred Austell, Vice President, and R. Y. McAden a director of the Atlanta & Richmond Air Line Company. The price paid was \$308,000, of which \$50,000 is to be in cash, the balance in three annual instalments. The road was sold some time ago to Gen. Worthington for \$450,000, but the purchase was never completed; hence the present sale.

Laucuster & Rending Narrow Guage.—This company has executed a mortgage of \$350,000 on its Quarryville Branch. The bonds will bear 7 per cent interest, and David Bair, Amos S. Henderson, and George K. Reed are trustees.

Waco & Northwestern .- This road was sold at trustee's sale in Houston, Texas, February 4, and was purchased by Col. W. J. Hutchings, Vice President of the Houston & Texas Central Company, for \$400,000. The road extends from Bremond, on the Houston & Texas Central I-13 miles northwest of Houston, in a northwesterly direction to Waco, a distance of 45 miles. It is operated as a branch of the Central road.

Utica, Chemingo & Susquehanna Valley.—At a meeting called for the purpose, held in Utica, N. Y., February 12, It was resolved to increase the capital stock from \$3,960,000 to \$4,900,000. It was also resolved that before the now stock to be lasued be delivered to the Delaware, Lackawanna & Western Railroad Company, the directors of the latter should give a receipt to the stockholders of the Utica, Chenango & Susquehanna Valley Railroad holders of the Utiea, Chenango & Susqueinanna Valley Rallroad Company, stating the purposes for which the stock was received, and that the issue of it should not affect the rights of the stock-holders under the lease. Also that this stock should bear the same rate of interest and stand upon the same footing as the stock guaranteed by the company at the time of the lease. The number of shares voting in favor of the resolutions was 26,198, or 6,198 more than the two-thirds required by law. The increase is for the purpose of meeting expenses incurred in extending the road and improving it according to the contract with the Delaware, Lackawanna & Western Railroad Company.

| Atlantic &                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | G. MONTHLY EARNINGS OF PRINCIPAL RAILROADS.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, Feb. 28-5 P. M.

There is no change in the condition of business affairs. The weather has been inclement. The state of the streets has not much improved, and heavy ice has appeared in the harbor; hence the semi-embargo upon trade, resulting from the repeated heavy snow-falls which has existed since Christmas, continues. The money market has also been a disturbing influence. Advices from the North and West represent that the farming community complain bitterly of the "hard times," of the low prices of what they have to sell, and the high cost of what they must buy. Collections are therefore difficult.

Provisions have been less active, and prices have shown some irregularity. The following is a statement of the course of exports from this market from Nov. 1 to Feb. 25, inclusive, for four

|                  | 18.2-13.   | 18/1-72.   | 1870 71.   | 1869-70.   |
|------------------|------------|------------|------------|------------|
| Pork, bbls       | 51,933     | 51,209     | 50,128     | 26.72.     |
| Beef, bbls., tcs |            | 40,703     | 68,397     | 27,320     |
| Lard, lbs        |            | 68,043,154 | 29,792,558 | 10,709,907 |
| Bacon, lbs1      | 22,655,576 | 85,108,350 | 27,03),77t | 15,237,133 |
| Butter, lbs      | 1,255,746  | 1,781,067  | 915,164    | 427,941    |
| Cheese, lbs      |            | 6,815,783  | 11,380,262 | 5,973,732  |
| Tallow, lbs      | 15,894,612 | 19,125,165 | 6,179,276  | 9,554,061  |

It is estimated from a statement nearly complete that the exports of bacon, lard, and pork from the United States in the past four mouths aggregate 262,000,000 lbs. against 202,000,000 lbs. for the same time last season, an increase equal to the product of 353,000 swine. The following, from the Cincinnati Price Current, is a statement of the progress made in hog packing:

|                                                    | 1872-3.   | 1871-2.   | 1870-1.   | 1869-70.  |

Today new mess pork jobbed at \$15 25, and 500 bbls. sold for June at that price. Lard was pressed on the market for early delivery, and 5,000 tcs. prime Western steam were placed at 8½c. for March delivery, with some at 8 9-16c. for April, and 8½c. for May. Bacon was easier, with sales of short clear at 7½@8c.; long do. 7½c.; dry salted shoulders for March at 6c. Cheese has been selling for export at 12@15c. for fair to good.

Tallow has been fairly active at 8½@9c. for prime Western and city. Whiskey has declined to 91c, Clover seed has been in large supply, at 8½@9c. per lb. Naval stores have been dull and depressed; strained rosin \$3 70@\$3 75; spirits turpentine closed active at 66½@67c. Petroleum has been weak and inactive; refined closed at 19½@19½c. in bbls. and 26@26½c. in cases; crude in bulk 8½c.; naphtha 14@15c. in shipping order. Oils have ruled dull. ruled dull.

ruled dull.

Freights have been quiet for the British ports, but rates have remained about steady; to Liverpool by steam, corn 6\(\frac{a}{2}\)d., bacon 40s., cotton \(\frac{1}{2}\)\(\frac{a}{2}\)5-16d.; and by sail, lard at 27s. 6d.; London by sail, corn at 7\(\frac{1}{2}\)d. and flour 2s. 6d.; and to Glasgow, by steam, corn at 7d. But there were a large number of petroleum charters yesterday, including vessels to German ports at 6s. 6d., but mostly on private terms. To-day corn was shipped to Liverpool by steam at 6\(\frac{a}{2}\)d., and there was a charter to Cork for orders with orain at 7s. 44d.

grain at 7s. 4½d.

Kentucky leaf tobacco has been in moderate demand, but prices have ruled weak—new crop, lugs, 7½@8c.; leaf, 8½@12½c.; old crop, leaf, 11½@15c. The sales have been 400 lhds., of which 125 hhds. for export and 275 lhds. for home consumption. Seed leaf has continued comparatively quiet. Sales embrace 100 cases leaf has continued comparatively quiet. Sales embrace 100 cases Connecticut, 1871 crop, at 50@55c., and 600 do. New York on private terms; also 100 cases 1870 crop, sundry lots, at 9@13c. Spanish tobacco continues inactive, but the large stock is well held, and 400 bales Havana sold at 95c.@\$1 10, currency, duty

paid.

The market for wool has been unsettled by offerings at auction.

Western Texas wools was offered. Yesterday a line of 1,800 bales Western Texas wools was offered, and prices realized ranged from 17½@28c. Two large sales were announced for next week. A large line of Montevideo has sold at ahout 38c., and Cape is quoted at 34@37c.; choice fall clip California sold at 30c.

Hops have been more salable. East India goods have remained quiet. Manila hemp is quoted at 10½c., gold. Jute butts have sold at 2½c., currency. Fish have ruled firm, with some large sales of Nova Scotia mackerel. Fruits generally quiet, but we notice sales of several hundred bbls. dried apples for Germany at 50551c par lb. 5@51c. per lb.

lngot copper has been quiet at 34½c. cash for Lake. There has been more doing in pig iron; No. 1 American sold at \$30, and No. 2, \$48; Scotch, \$57@58 for Eglinton and Glengarnoch. Spelter fairly active at 7½@7½c., gold, for Silesian. Tin and tin plates less active

Exports of Leading Articles from New York.
The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1873, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show total values, including the value of all other articles besides

#### COTTON.

FRIDAY, P. M., February 28, 1873.

By special telegrams received to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, Feb. 28. It appears that the total receipts for the seven days have reached 105,528 bales against 109,153 bales last week, 122,052 bales the previous week and 126,521 bales three weeks since, making the total receipts since the first of September, 1872, 2,715,815 oxies against 2,244,058 bales for the same period of 1871-72, showing an increase since September 1, 1872, of 471,757 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows:

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                 |           | 1                | · ·       | 1         |          |

The market was very dull the first half of the past week, and on Wednesday quotations were reduced \$\frac{1}{2}c\$. This decline, however, did not lead to much increase in business, foreign accounts having been dult, the home demand restricted within the narrowest limits, and the receipts at the ports continued on a liberal scale. The anxiety of holders to realize has also been increased by the high rates current for money, and the consequent difficulty of obtaining advances. To-day the market was irregular; low grades of Gulf cottons were reduced \$\frac{1}{2}6\frac{1}{2}c\$, and at the decline taken freely for export. Uplands were unchanged. For future delivery there has been a uniform and very steady downward ten dency, though the decline has been comparatively slight. Yesterday at the decline there was considerable activity, but after 'change there was some irregularity. To-day the feeling was firmer, and orices were a sixteenth to an eightth higher, but the business was only moderate, and the advance was not fully sustained at the close. The prices for futures last reported were (ba-is low middling) 20 7-16c, for March, 20\frac{1}{2}c, for April, 20 15 16c, for May, 21 9-32c, for June, and 21 9-16c, for July. The total sales of this description for the week are \$8.350 bales, including ... tree on bosrd. For immediate delivery the total sales foot up this week 5.913 bales, including 3,354 for export, 1,572 for consumption, 887 for speculation, and 160 in transit. Of the above ... bales were to arrive. The following are the closing quotations to-day:

|                 | Upland and<br>Florida. | Mobile.        | New<br>Orleans. | Texas  |

WEATHER REPORTS BY TELEGRAPH.—The weather appears to have been more settled the past week. At New Orleans there has been no rain all the week. It has rained only on one day at Selma, the remainder of the week being pleasant. At Montgomery there has been rain on two days, and at Mobile no rain. Our telegrams from Columbus report three rainy days, and from Macon and Charleston rain on two days. At Augusta it has rained on one day, with the rest of the week pleasant but cold. There have been two rainy days at Memphis; the rivers are subsiding; the planters are marketing the cotton freely. At Nashville they had rain the early part of the week, but since then it has been clear and pleasant. The thermometer at Memphis has averaged 36; at Charleston and Macon, 50; Columbus, 47; Montgomery, 46 and Selma, 52.

CONSUMPTION IN GREAT BRITAIN.—In our editorial columns will be found a letter from Messrs. Smith, Edwards & Co., of Liverpool, and our answer to which we would refer our readers.

BOMBAY SHIPMENTS.—According to our cable dispatch received to-day, there have been 22,000 bales shipped from Bombay to Great Britain the past week and 1,000 bales to the continent, while the receipts at Bombay, during the same time have been 34,000 bales. The movement since the first of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Feb. 27:

Shipments this week to— Great Con-Britain, tinent. Total. Shipments since Jan. 1 to— Week's Great Con-Britain, tinent. Total, receipt Total, receipts. 1873.... 22,000 142,000 34,000 245,000 40,000 1,000 23,000 105,000 37,000 178,000 1372.... 14,000 14,000 28,000 129,000 33,000 1871.... 2,000 1,000 3,000 99,000 30,000

From the foregoing it would appear that compared with last year there is an *increase* this year in the week's shipments to Great Britain of 8,000 bales, and that the total movement since Jan. 1 shows a decrease in shipments of 103,000 bales compared with the corresponding period of 1872.

GUNNY BAGS, BAGGING, &C.—The market for bagging continues to improve, and sales are making daily at advancing prices. We note since our last issue a sale of 500 rolls July to October at 14½c cash; 500 rolls spot, Boston, at 13c cash; 500 rolls spot, Boston, at 13c cash; Boston, at 13c cash; Boston, at 13c cash; Boston, at 13c cash; Holders are asking 13½@13½c cash for immediate delivery, and 14¼ all April, and 14½@15c May to October delivery. India bales are dull and neglected. For bags the market is very firm, and there are several inquiries from consumers. We hear of a sale of 50 bales at 15½c, and quote price asked at 15½@15½c cash. No other sale reported. Of butts there are rumored sales of some 6,000 to 7,000 bales, part on spot and part to arrive. Prices and terms have not transpired, but thought to be 2½c cash, and time for spot parcels, and about 2½@2½c cash to arrive. Contracts we quote 2½@2 1-16c gold, and single deliveries, say April and May, at 2c gold, cash.

VISIBLE SUPPLY OF COTTON MADE UP BY CABLE AND TELE-GRAPH.—By cable we have to-night the stocks at the different European ports, the India cotton afloat for all of Europe, and the American afloat for each port as given below. From figures thus received, we have prepared the following table, showing the quantity of cotton in sight at this date (Feb. 28) of each of the two past seasons:

1873. 1872.

The above totals show that the interior stocks have increased during the week 7,138 bales, and are to-night 11,533 bales more than at the same period last year. The receipts have been 3,910 bales more than the same week last year.

The exports of cotton this week from New York show a decrease since last week, the total reaching 9,021 bales, against 9,278 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1872; and in the last column the total for the same period of the previous year:

#### Exports of Cotton (bales) from New York since Sept.1, 1872

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 91,109 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York we include the manifests of all vessels cleared up to Wednesday night of this week:

| night of this week:                                                                    |
|----------------------------------------------------------------------------------------|

Included in the above totals are, from Charleston, 450 bales to Barcelona; from Savannah 220 bales to Barcelona, and 220 bales to Palma de Maliorca.

Below we give all news received, during the week, of disasters to vessels carrying cotton from any port of the United States:

Nor Wester (1133 tons, of Boston) Sedgicy, from New, Orleans Feb. 14 with 2984 bales cottee, 526 sacks hone dust, 22 blids tobacco and 2100 staves for Liverpool, put into Key West Feb. 23 with her cargo on fire; it having been burning since the 20th. She was towed clear of the shipping same day and grounded at the entrance of the harbor; twenty-five bales of cotton had been saved but there was very little prospect of saving either the balance of cargo or ship.

West Derry (Br), Uran, from Moble for Liverpool, which put into Key West Jan. 9, having been ashore, tepaired and salled Feb. 18 for destination.

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 114½ and 115½, and the close was 114½. Foreign Exchange market is steady. The following were the last quotations: London bankers', long, 108½0108½; short, 109½0109½, and Commercial, 107½0108½. Freights closed at 109 $\frac{1}{3}$ @109 $\frac{1}{3}$ , and Commercial,  $107\frac{1}{3}$ @108 $\frac{1}{3}$ . Freights closed at  $\frac{1}{3}$ @5-16d. by steam to Liverpool,  $\frac{1}{3}$ @1 $\frac{1}{2}$ c. gold by steam and 1c. by sail to Havre, and  $\frac{1}{3}$ d. by steam to Hamburg.

#### BY TELEGRAPH FROM LIVERPOOL .-

LIVERPOOL, Feb. 28—5 P. M.—The market opened steady and closed quiet to-day, with sales footing up 10,000 bales, including 1,000 bales for export and speculation. The sales of the week have been 67,000 bales, of which 4,000 bales were taken for export and 3,000 bales on speculation. The stock in port is 525,000 bales, of which 196,000 bales are American. The etock of cotten at sea, bound to this port is 550,000 bales of which 365,000 bales are American. Trob m Web 14

#### BREADSTUFFS

FRIDAY P. M., Feb. 28, 1678.

There have been very unsettled and generally depressed mar kets for flour and grain during the past week, and the close was dull, with a marked absence of tone. There are, however, some features that are in a measure new, promising to exert a decided influence for a change in the early future.

The receipts of flour have materially fallen off, and for the current week will not aggregate much more than half as large as the weekly average for some time previously. At the same time the demand has to some extent improved-buyers for London have been in the market, and have taken a few thousand barrels at \$7 10@7 40 for common to good extras from spring wheat. But the leading influence upon prices has been a stringency in the money market, and an increased pressure to sell, from this and other causes. On Wednesday, considerable lines were closed out at a decline of 75c.@\$1 per bbl. from the prices early in Feb. ruary. But the market has since been more steady. Stocks are small, prices below the cost of production, and the spring trade is about to open. To-day fair shipping extras were selling at \$7 in lots, but whole lines could not be had at that price.

The wheat market has been rather more active, but at prices showing a decline of 3@5c. per bush. There has been some business in boat loads for export, at \$1 64@1 65 for No. 2 Milwaukee, although some holders refused to accept these prices. A number of car-loads of No. 3 spring have been sold at \$1 54@1 55, and No. 2 Chicago at \$1 58@1 60. Winter wheat has been even more depressed, and sales have been quite small. But stocks are only about 750,000 bush, and it is nearly three months before supplies other than by rail can be expected. The Western markets, however, have declined, and there is a near approximation towards a margin for shipments eastward by rail. To-day, part of a load of No. 2 Milwaukee sold at \$1 67 in store.

Indian Corn has declined. Foreign advices have been unfavorable to shippers, and the local demand has been held in check by the inclemency of the weather. The pressure for money has also had some influence in increasing the offerings on sale. The visible supply has increased to over 10,000,000 bushels, and holders begin to feel some anxiety. To-day five loads of old

mixed sold at 63c. in store and 65@651c. afloat. New Western sold at 64c. for mixed, 65c. for yellow, and 66c. for white afloat.

Rye has remained dull. Barley has been inactive. Buyers and sellers continue apart in their views.

Oats have declined fully 2c per bushel. Receipts by rail have increased, and for the moment at least the supply has exceeded the demand; but stimulated by the lower prices, business has been good, and the close is firm. The late transactions have been mainly at 51c for prime mixed and good white new Western. To-day the market was very firm.

The following are closing quotations:

#### GROCERIES.

FRIDAY EVENING, Feb. 28, 1873.

The weather has again acted as a check upon operations in groceries, and the movement from second hand during the past week has not been of an altogether satisfactory character. Sales from first hands have been rather better, and a very fair aggregate business is reported in both sugars and coffee. The sales of the latter are restricted somewhat by the small offerings still made by importers. Sugars have weakened, but are selling fairly at the decline. There has been very little done in fruits, while spices have sold fairly and remain firm throughout the list. Molasses is selling better at the close.

#### THEA.

The cold weather and storms of the week have checked grocers, operations to a considerable extent, and the line business lu teas during the current week has been only moderate. Buyers of invoices have been in the market pretty constantly, and there has been a good deal of disposition shown to move stock. Oolongs are in very fair request just now, and holders of this stock are asking very full rates, which seem to be realized without much difficulty. Greens continue to sell fairly, and are quoted as before, with a strong tone on the medium qualities, which have moved well. There is no lack of firmness in the market for Japans, although a fair movement has been in progress in the way of small invoices. The market is more favorable for importers now, but there is still very little margin in any teas over the cost of importation.

Late Chinese advices show heavier acttlements and shipments for the United States than were made up to this period last year. We note sales here since last report of 1,700 half chesta Greens, 3,400 do. Japans, 1,000 do. Oolongs.

Imports the past week have included 425,031 lbs. Green, per "Morro Castle," from Shanghai.

The following table shows the Imports of Tea Into the United States from January 1 to date, in 1873 and 1872:

Atlantic ports, 1873...lbs. Black. Oreen. Japan. Total.
Atlantic ports, 1873...lbs. 4,45,085 4,161,577 4,273,746 12,840,888
Atlantic ports, 1872..... 4,77,835 6,096,230 1,744,057 12,518,182
The indirect receipts at New York, principally overland receipts from San Francisco, have been 12,208 ptgs. since January 1, against 32,473 last year.
Imports at San Francisco from Jan. 1 to Feb. 1, were 70,245 lbs. of China and 296,190 lbs. of Japan tea.

#### COFFEE.

The arrival of the steamer "Ontario" on the day following our last report with 20,000 bags of Rio increased our stock by fully 10,000 bags more than dealers here had calculated upon, but this excess was not unfavorable in its effact npon the market, and prices were rather strengthened than otherwise. Previous to this arrival, the offerings were restricted to the few lots held by speculators, and there was no opportunity for liheral selections from first hands. Buyers were willing to operate, as the supplies in second hands had been pretty well run down by the liberal distribution from first bands, but the stock has been too small to admit of operations on a large scale. The receivers of coffee ex "Ontario" have advanced their pretcheions fully %c., and although the movement is not very active, the market is fully sustained at that improvement. There has been a limited movement in the India grades, but sales are prevented by the absence of stock in first bands. Maracaibo has been advanced, and is in good request, with some lots afloat under treaty.

Laguayra, and, in fact, nearly all of the West India qualities, are higher, the revised rates being shown by our table of quotations. The sales are 8,748 bags Rio ex "Ontario," 3,900 do. ex "Sophia," both here, and at Baltimore 3,500 ex "New Light," and 2,000 ex "Aquidneck." At Galveston 2,397, and at New Orleans 4,501, the latter ex "Johan."

Orienns 4,501, the latter ex "Johan."

Imports at this port the past week have included 20,346 bags Rio, per str. "Outario."

The stock of Rio Feb. 27, and the imports since Jan. 1, 1873, are as follows:

New Phila- Batti- New Mobile, GaiFor Stock. 37,202 Same date 1872 116,651 23,403 10,144 6,500 3,500 164,998

#### STIGAR.

The week opened with a rather soft feeling on Museovado sugars, and the market has teuded in buyers favor ever since. Refiners have operated to a fair extent, and their purchases have prevented any material accumulation of stock, but holders have been forced to concede considerably, and the market at the close is fully an eighth below last quotations. Some holders quote the market on a basis of 8%@8%c. for fair to good refining Cuba, which would represent a decline of about an eighth, but to effect sales readily holders have

found it necessary to take off about a quarter, bringing the range down to 8%@8%c., to which we conform our quotations. Centrifugsl and clayed hold their own with a good degree of firmness, and the softening is solely on Muscovados. The market for refined sugars has been soft during the entire week, and closes at a decline from our last quotations, with a moderate grocery demand, but sales barely sufficient to sustain the market. The transactions in raws include 2,274 boxes molasses sugar at 8@8%c., 683 do. clayed at 95,0 9%c., 51 bhda. Demerara at 10%@10%c., I,879 hhds. Centrifugal at 9%@9%c., 1,839 hhds. Cubs at 81/6081/c., 300 do. Purto Rico at 85/c., 2,783 hoxes Centrifugal at 9%@9%c., 227 do. Havana at 8%c.

#### MOLASSES.

As the season wears on refiners are feeling more the necessity of laying in stock, and their operations are becoming rather more liberal. There is still an absence of marked activity, but two full cargoes of Muscovado have been placed during the week, and with liberal offerings made up from recent arrivals there is more disposition to make selections. Prices are very strong, and the sales of this week indicate an improvement, the price realized being 35c. The movement in grocery qualities has not become very liberal as yet, but shows some improvement over the previous week. The stock of old crop is now all cleared out excepting in Porto Rico grades, of which there is a moderate supply offering at 30@50c., while new crop ranges from 35 to 55c. with a fair inquiry. Holders of domestic continue to ask previous rates, the choicest qualities being quoted at 75c. There has been no great excitement in syrups, but a steady demand for moderate sized lots prevails, and considerable stock has gone into consumption at about previous rates. The sales of molasses Include 1,283 hhds. and 137 tcs. Cuba Muscovado at 35c., 300 bbls. New Or-

The receipts at New York, and stock in first bands Feb. 27, were as follows:

### THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 28, 1873.

The weather is still unfavorable for an active distribution in the interior, and as retail dealers fail to see any very encouraging indications of an active spring business, there is a general indisposition shown to operate freely, and the majority of buyers from the interior return home without making liberal selections. It is hoped that the deficiency in the early sales will be made up by a more active distribution in May; but such is seldem the case, and our jobbers have been bitten too often to base very great expectations upon the coming business. There has been a considerable amount of goods distributed thus far, but the aggregate is not fully up to the average for this period of the year. Prices are very tull, and the business is sufficient to maintain previous quotations. Stocks have run low in almost every instance, and agents are taking orders on many lines, although their sales are curtailed by the slow movement which continues from first hands. The absence of speculation from the trade is a healthful feature, and one which the experiences of our dealers during the past few years make them regard with especial favor. Collections have been fair thus far and the general tone of the market is sound.

DOMESTIC COTTON GOODS .- Although the jobbing movement has been somewhat curtailed by the unfavorable weather of the past week, the aggregate distribution has been fair, and the strength previously noted on all lines of cottons continues with prices rather tending toward an advance. A good demand from the interior prevails in brown sheetings and shirtings, and all grades are distributed as freely as the reduced condition of stocks will admit. Prices are very strong, but have undergone very few changes since our last report. Bleached sheetings and shirtings are in active request and are firmly held, with prices somewhat improved in a few grades. Several brands of shirtings are largely sold ahead, and in some cases are advanced. Colored cottons are selling freely, and the market is strong on all of the leading brands of ticks, denims, and stripes. Prints are in good request, and novelties are moved as fast as received. The offerings comprise many choice styles this spring, and the trade thus far has been all that dealers could desire. Other cotton fabrics are in fair request, with no noteworthy alterations in prices.

DOMESTIC WOOLEN FABRICS.—The business is without especial animation, and the 'market rules only moderately active, sales being restricted for the most part to small selections of the better qualities suitable for immediate distribution. Clothiers are still moderate buyers, and the bulk of the sales are to them. Jobbers are buying moderately, but their customers have not begun to operate with any freedom as yet, and they restrict purchases in consequence, as the outlook is not favorable for any marked improvement in values during the remainder of the season. There are few goods in the country, and it is thought that the distribution cannot fail to exhaust the stocks in first and second hands. which will be light, as manufacturers have turned upon winter goods unusually early. Dress fabrics sell freely, and the offerings of all our principal mills are held with much firmness. The stocks include many choice effects, which compare favorably with any similar goods made abroad.

Foreign Goods.—There has been a fair business in a private way and through the auction houses, but the trade lacks spirit still. Staple dress fabrics are in good request, and there has been a liberal distribution of worsteds. Silks have displayed rather more animation in first hands, and fair parcels of black gross graines have been taken by city and out of town jobbers. Prices rule steady at about last year's rates. Ribbons have not been very active, and have been forced in the auction rooms on several occasions at rates greatly in buyers' favor. White goods were in fair request, and are realizing a moderate profit. Nainsooks, jacconets, Swiss mulls, checks, &c., are moving more freely, and some houses report an improved demand for piques, although they are still comparatively inactive. Embroideries are also more inquired for, especially Hamburg edgings and insertions.

We annex a few particulars of leading articles of domestic manufacture, our prices quoted being those of leading jobbers:

| Brown Sheetings and Shirtings.                                                                                                | Width. To A nest file for holding current numbers of the Chronicle is sold at the office for 50 cents; postage on the same is 20 cents. Volumes bound for subscribers at \$150. The first and second volumes of the Chronicle are wanted by the publishers.

#### THE BANK STATEMENTS AND THE RUMORED MOVEMENT IN GOLD.

Monetary relaxation generally occurs soon after the Comptroller publishes his call for the quarterly reports. At present, however, the expected ease is slow to make its appearance. The banks are making up their statements in response to the call just issued. They are made up to the 28th February, as was expected by the banks; and these institutions, having by some chance get possession of the idea that they would be called about that date, were very busy strengthening themselves for some days before, so that they appear now pretty well in line as to their reserves. This can be inferred from the last week's bank statement, as given on another page. But that report shows the averages for the whole week, and as they were rising, the position of the banks on the 28th will probably appear stronger than their average condition in the previous five days. The banks show an increase of about 11 millions in the reserve which is now within \$312,350 of the 25 per cent required by law.

The effort the banks have made to achieve a good position in their reports to the department is chiefly important in its effects on the money market, where, as was stated in our last issue, the stringency originating from other causes was made worse on account of the forced contraction they had to realize in their loans. This temporary pressure is not yet at an end. For several days past a partial relaxation has developed itself, but yesterday the stringency returned.

Another cause at work in the production of ease is the improved condition of the interior money markets which do not seem to be draining so much currency from us as they did last month. It would, indeed, be strange if the western money markets did not begin to show some signs of repletion, for during the past fifteen months it is estimated that over 70 millions of dollars of capital from the east has found investment in one kind of loans or other in the neighborhood of Chicago alone. The destruction of capital by the fire at Chicago eighteen months ago made, however, such a void in the supply, and created such an imperious demand, that for some time to come our eastern money markets can scarcely fail to find their condition more or less affected thereby, especially during the critical periods of monetary instability which well-known general causes now and then produce.

The loan market has been more or less of late under the noxious influence of the gold clique, who are said to be manœuvring for a sudden rise at an early day. They are reported to wield a large capital, and to have bought up 12 or 15 millions of the gold floating in the street, by which deliveries are made and customs duties paid. Their object is supposed to be to make cash-gold scarce, and when they have got up sufficient pressure, to turn the screw and mark up the price. They seem to rely also on the small amount of gold in the Treasury, which, as we show elsewhere, is only \$41,915,801. A year ago the amount was nearly 78 millions, showing that the Treasury has lost about 36 mil lions of gold during the year, and is therefore less able than for some years past to interfere by extra sales to stop a sudden advance in the premium or to check a speculative movement in the market to bring on such an advance. These persons are also calculating on an export of gold to meet the demand for Germany, which they expect to revive. Here, however, we shall not be surprised to see them disappointed. In the present demoralized state of the foreign exchange market no heavy export of gold is likely. Still those of our foreign merchants who have been addicted to the bed habit of going short of gold will do well to accept the warning and get into a safe position. As the gold clique cannot hope much longer to tamper with the money market they may perhaps try what they can do in their chosen domain of the gold market.

### THE INCREASE OF SALARIES BILL.

Good government, in these times, says Arthur Helps, "is a very costly article to buy, and it is well worth all it costs." We think he is right. We cannot, therefore, join the too-prevalent cry against the principle of the Salary Bill, which was passed on Monday, and is now a law. We have not yet received a copy of the act; but its main provisions are well known. It augments the salary of our chief public men, as follows:

| SALARIES UNDER THE OLD AND NEW                  | LAW.   | 1 10-    |
|-------------------------------------------------|--------|----------|
|                                                 | New.   | Old.     |
| Precident of the United States                  | 50,000 | \$25,000 |
| Vlce-President                                  |        | - 8,000  |
| Chief Justice of Supreme Court                  |        | 8,500    |
| Justices of Supreme Conrt                       | 10,000 | 8,000    |
| Circuit Judges                                  |        | 6,000    |
| Speaker of House of Representatives             |        | 8,000    |
|                                                 | 10,000 | 8,000    |
| *Senators                                       | 7,500  | 5,000    |
| *Members and Delegates Honse of Representatives | 7,500  | 5,000    |
| Assistant Secretaries of Departments            | 6,000  | 3,500    |

*Apply to the present Congress, and to be in lieu of mileage, newspapers, and stationery.

Two objections are raised against this advance-one on the ground of economy, the other on the ground of expedience. As to the first, it is argued that the pressure of taxation in this country ought to be lightened instead of increased; that our people are impatient of their present burdens, and will not brook the heavy addition thus made to them. We grant at once that the pressure of taxation should be mitigated by judicious economy in the civil administration, as well as in the expenditure for the army and navy. But though economy is a good thing, pinching parsimony is by no means good. In our domestic and personal expenditure how often do we find that a liberal outlay, approaching even to profusion, may at times be the truest economy? In our business disbursements few of us fail to recognize a dozen times a day the truth of the old Hebrew proverb, "there is that giveth and yet increaseth, and there is that withholdeth but it tendeth to poverty." Indeed, one fundamental part of the administrative wisdom which wins success in life is to know when to expand and when to draw in, or as the inspired sage has it, "when to withhold and when to give." Now, as a question of practical statesmanship, it appears to us that the case offered to us in this salary discussion is precisely one for giving, and not one for withholding. Our government will indeed be a little more costly; but we can well afford the cost. We often say we are growing in wealth more swiftly than any nation upon earth. If this national growth of which we boast is real, if our material riches and productive power are expanding as we pretend they are, then surely we should not grudge any needful outlay for the support of those of our citizens who serve the country in Congress, on the Judicial Chair, or in the various departments of executive administration.

But this brings us to the other objection, namely, that the advance of salaries in the bill before us is in xpedient and unnecessary. We have not space to discuss fully this view with those who hold it, but will briefly offer a few hints by way of suggestion And in the first place we ask whether it is becoming in a great Republic to have its President a poor man, compelled to dig for a living at the close of his four years of faithful service, after serving as its chief Executive, the responsible head of its government, and the peer thereby of the princes and potentates of the Old World. We do not wish to give our President a regal or imperial income, to surround him with the corrupting splendor of a court, or even to make him very wealthy. All we ask is that he may have such a salary as will enable him to lay by enough during his term of office to place himself and

his being anything clse but a citizen of respectable means and moderate opulence during his subsequent life after laying down his office. The simplicity of our government forbids us, and we fervently hope will always forbid us, from exacting that all candidates for the Presidential chair shall be men of wealth before election. What we ought to do is to give them the opportunity by a liberal salary to acquire a moderate competency during their term of office. If we are right in our view of the importance of placing the President beyond the reach of pecuniary anxiety, then every one will coacede that \$50,000 a year is by no means an extravagant sum to be allotted for the purpose.

As to the Judges of the Supreme Court the case is even more clear. On the bench we have need of the highest legal talent and experience to be found in the country. Such qualifications are very costly to acquire. They bring their owner a great income in business. If we wish to employ and retain the right men we must pay larger salaries than we have paid-larger, perhaps, than even those set down in the new bill. The honor of a seat in the highest Appellate Court in the United States" offers, of course, a temptation to the ambition of our best lawyers but except the emoluments be such that the fittest men can afford to relinquish their private practice we shall fail to get them.

As to members of Congress we have also a word to say. The members of both houses had their salaries raised during the war from \$3,000 to \$5,000 with mileage. They now receive \$7,500, without mileage or other allowances. They have certainly a great increase, but this is not the question. Is it too much? Can an average Congressman live on less? If not, then we ask is it wise to give any man a seat in the National Legislature when his lapse from virtue at a critical moment may let loose evils involving a loss of millions to the country? Is it wise to put him in such power and then tempt him to abuse both by the goad of penury and the sting of absolute want? We have inquired of disinterested persons, and are assured that in the city of Washington members of Congress cannot live on their old salaries without some additional sources of income. The scandals of the Credit Mobilier investigation show how designing men tempt Congressional virtue. Those disclosures are wisely followed by the Increase of Salaries bill.

#### THE DEBT STATEMENT AND THE RUMORED NEW ISSUES OF GREENBACKS.

Once more we find the debt shows a slight decrease; after an intermission of two months in the usual course of monthly liquidation to which during the past four years we have been accustomed. The decrease last month was \$5,277,880, making the total decrease for the four years ending March 1, 1873, \$368,082,559. The balance of currency in the Treasury is down to \$4,600,902, and the coin balance to \$65,930,781, of which only \$41,915,801 belongs to the Government. This is the lowest balance of coin the Treasury has held for some years, and scarcely justifies the Secretary in selling six millions this month, which he is reported to have been persuaded to do at the instance of the Syndicate.

A more noticeable feature of the debt statement is the reduction of the greenback issues to the aggregate of three hundred and fifty-six millions, which for several years had been the maximum; until in October last, when, in consequence of the Boston fire and of apprehended trouble to the money market, four and a half millions more were issued during Mr. Boutwell's absence from Washington. These new greenbacks have all been withdrawn; thus his family beyond the reach of want, and to preclude refuting the predictions so rife of late that further issues

. 11.

are to be hereafter made, on some pretext or other, to the extent of many millions.

It is not easy to see how any such inflation of the currency is believed in. For in the first place the 3 per cent certificates in the statement before us are reported at \$1,310,000, all of which are about to be withdrawn; and, secondly, the only authority for the issue of any greenbacks beyond the 356 millions outstanding will expire when the last of these certificates expire. This authority is given by the 3d section of the act of July 11, 1862, which provides that for the payment of temporary loans, and for that purpose only, a reserve of 50 millions of greenbacks shall be kept on hand, in addition to the aggregate in circulation. So long as these certificates are outstanding this provision of the law remains in force, and authorizes the use of any part of this reserve which may be needful to prevent embarrassment to the Treasury from the payment of these demand loans.

Under this 3d section of the act of 1862 the October issue of greenbacks was made, and as that section of the law is now virtually obsolete; there is, as we said, no chance of of any further issue of greenbacks, because the law gives no power to issue them. On the contrary, all such issues are forbidden implicitly by the whole of the legislation of Congress since 1862.

It must have been from some strange and total misconception of the real state of the law on this subject that the Washington correspondents of the morning papers have been amusing themselves and exciting Wall street by predicting that if some new law did not interpose an express prohibition, the Treasury would proceed, immediately on the adjournment of Congress, to issue 44 millions of retired greenbacks. But why stop at 44 millions? If the Treasury can issue any amount of greenbacks needful to replace what have been withdrawn in past years, why not is ue 66 millions? For in this month, seven years ago, 422 millions were outstanding, and previously the aggregate of greenbacks was larger still? Why stop, then, at 44 millions? The answer is that Chief Justice Chase, in the Supreme Court, stated in giving the decision in the case of Bank vs. The Supervisors, 7 Wallace, 29, that Congress contemplated a circulation until resumption of 400 millions of dollars, and that the three acts authorizing greenbacks authorize just so much and no more as permanent.

But these gentlemen, if they had read the Chief Justice's decision a little more carefully, would find that he treats the power of Congress to issue more greenbacks as a war power, and as conferred only by the circumstance that we were at war when it was exercised. If then, the three laws which authorized the greenback issues, namely, the laws of February, 1862, July, 1862, and March, 1863, had been enacted at a time when the country was at peace, they would have been unconstitutional so far as the greenback issues which they pretended to authorize. Equally does it follow that since the war no new law could be constitutionally passed authorizing greenback issues, and that if Congress had positively authorized by special enactment the issue of the 44 millions of which Mr. Richardson has said so much in his otherwise excellent book on the public debt, still no authority would attach to any such enact It would be unconstitutional and void, and the Treasury would have no more power to issue greenbacks after such an enactment than before it.

If, then, Congress itself has no authority to authorize the Treasury to emit notes, still less can the Treasury claim any such power, or attempt to put out new greenbacks to any amount, except, as we have said, in exchange for, and in redemption of, certificates payable on demand. The issue of furrency is one of the highest prerogatives ever claimed by the Government of the United States. For any officer of

the Treasury to usure this prerogative would be an unconstitutional stretch of power which might render the person guilty of it liable to impeachment. We would not, therefore, advise any one to build upon the hope of more greanback inflation. Mr. Boutwell has given the death blow to all such hopes by his contraction of the greenback issue to 356 millions. If the Treasury had been likely to issue more notes, it would not have called these notes in now, unless, indeed, which we cannot believe, the policy of the Treasury is to be subverted if Mr. Boutwell should leave it for the Senate of the United States. The subjoined table compares the aggregate of greenbacks, certificates and fractional notes for several months past, so as to show the rise and gradual decline of the expansion.

| AGGREGATES OF THE C | UBRENCY SEPT.   | 1872 TO MARCH | 1978.        |
|---------------------|-----------------|---------------|--------------|
| 1872.               | Greenhacks,     | Certificates, | Fractional.  |
| September 1         | . \$356,000,000 | \$7,985,000   | \$40,819,501 |

#### HOW TO WIND UP THE MARKET SAVINGS BANK.

The depositors of the Market Savings Bank will be dis appointed to learn that the second dividend, just declared, amounts to no more than 8 per cent, making 38 per cent with the previous payment last summer. In June last the Committee appointed by the depositors to examine the affairs of this defunct bank, reported that it owed \$960,452, its available assets being \$447,277. These assets were made up of \$107,336 in cash deposited in bank; bonds and mortgages \$173,156; together with \$133,642 in State and other bonds, and over drafts \$33,141. The details were as follows:

| ASSETS OF THE MARKET SAVINGS BANK.                    |           |    |
|-------------------------------------------------------|-----------|----|
| Cash in Park Bank                                     | \$107,336 | 95 |
| Bonds and mortgages                                   | 178,156   | 82 |
| \$50,000 Alabama State bonds. at 81                   | 44,500    | 01 |
| \$20,000 Georgia State bonds, at 82                   | 16,400    | 00 |
| \$59,000 Georgia State bonds, at 89                   | 52,510    | 00 |
| \$35,000 South Carolina State bonds, at 35            | 12,250    | 00 |
| \$5,000 Yonkers bonds, at 97                          | 4,850     | 00 |
| \$3,600 Washington Square, Richmond Co., bonds, at 97 | 8,132     | 90 |
| Overdrafts, about two-thirds against Wm. Van Name     | 33,141    | 90 |
|                                                       |           | _  |

\$447,277 89 To these assets, which were reported good, there was added a second class of inferior value, comprising call loans, \$361,139, of which \$241,989 were set off as "bad," \$78,478 as "doubtful," and \$40,672 as "good." The general result of the report was that the Assignee, Mr. F W. Worth, had about \$450,000 to divide among claims for \$960,000, which would give some 46 per cent. Mr. Worth reports that his cash balance after paying the June dividend of 30 per cent, was \$7,909 79; his receipts have since been \$84,235 74, with current expenses \$6,733 02. The nature of these heavy expenses is not stated, but they reduce the available balance to \$84,412 51. The 8 per cent dividend now being paid will amount to \$76,836 16, leaving a cash balance in Mr. Worth's hands of \$7,576 35. This sum is reserved apparently to pay the costs of certain suits which are being carried on against Mr. Van Name, the President of the Bank, for the recovery of \$50,000; against H. R. Conklin, Cashier, \$10,000; and against C. L. Goddard, the Vice-President, for \$20,000. When these suits will be determined might seem very doubtful to persons who have had experience of the law's delays. But for some reason Mr. Worth entertains hopes of their early settlement, as he announces the final dividend for September next.

In view of these facts we must admit that the depositors of furtency is one of the highest prerogatives ever claimed by the Government of the United States. For any officer of and dissatisfaction. It was on the 16th of January, 1872,

that the bank suspended; and the depositors, for all that appears, might have been paid 45 per cent of their claims within a few weeks of the failure. After fourteen weary months of delay, the helpless orphans and poor widows, who have been swindled by the concern, find that instead of 45 per cent they are to have at present but 38 per cent, with slender hope of getting much more, and with two or three doubtful lawsuits on their hands.

Truly the depositors are in a sad case, if this were all. But there is still more. Thousands of dollars of their recovered money have been spent in expenses, but so far as appears no efforts have been made to get punishment inflicted on the President, Vice President, and Directors of the Bank. The abscouded Secretary, Conklin, is said to be doing all in his power to aid the assignee in the task of disentangling the accounts of the bank, whose bookkeeping was of a piece with the rest of its management. If Conklin, on condition of this service being faithfully discharged, and his testimony honestly given for the conviction of the other officers of the bank, has been allowed to escape criminal prosecution, how is it with Van Name, with Goddard, and with the directors? We have been urging criminal proceedings against these men. The bank has robbed the depositors whose trustees they were. The loss of these poor people is half a million of dollars. It will not do for the President and his fellow trustees to plead ignorance of this conspiracy to defraud. The published evidence shows that they were not ignorant. They knew what was going on, and concealed it for fear of ruining the credit of the bank. They now lay the blame on Conklin, the Cashier. But was not he their tool? Why did they not remove that unfaithful officer? Why did they allow him to misappropriate moneys and hold his place? They were the trustees, responsible to the public, to the stockholders, and to the State. Why did they let Conklin embezzle the moneys which they held in trust? Is it compatible with innocence to go on receiving the money of the poor after the bank was insolvent? Why did the bank take deposits up to almost the very hour of closing its doors? But we need not dwell on the notorious facts. These men were guilty of a criminal breach of trust. They should have been brought to account before now. The depositors have reason to be dissatisfied that this has not been done.

But let not these suffering creditors of the bank forget that they have a remedy in their own hands. They can set the machinery of the law in motion themselves. Any one of them able to speak of his own knowledge as to the facts may go to the proper authorities and make his affidavit. He will find the District Attorney ready to take action. It is the duty of that officer to presecute such offenders as these men are notoriously held to be. Any person who has lost money by this bank is competent to go to the District Attorney and tell him all he knows. Till the case is complete and the evidence is sufficient to secure an indictment, the depositors will not have done their duty to the public or to themselvos.

But there are also the civil suits. These defaulting officers are reputed to be rich. They are charged with swindling the depositors of half a million of dollars. The public desire to know how it happens that Van Name, the most wealthy man of all, is sued for no more than \$50,000, and Goddard, another man of opulence, for no more than \$10,000, while the other directors implicated in the evidence have not been sued at all. These unfaithful trustees must not be allowed to escape. They have not only violated the sacred obligation which hallows every money trust, but they have used this very fiduciary power to shield themselves; to conspire together to rob those who trusted them and to unsettle the foundations of savings banks all over the country. Of all

our bank failures this has some of the worst features. If the law cannot be made to inflict summary punishment we ought to know it before the Legislature adjourns at Albany. And this punishment will be inadequate if it do not include the refunding of the half million embezzled, or as much thereof as the estates of parties will afford toward the payment of the deposits in full. This is the true way to wind up the Market Savings Bank, to quicken the liquidation of the other dilatory broken banks, and to prevent such atrocious failures in future.

#### COTTON SUPPLY AND CONSUMPTION IN EUROPE.

We have in our previous articles confined ourselves mainly to the question of consumption during past years. The chief interest we have in the past, however, is to help us to forecast the future. In assisting our readers to do this, we do not expect to have any influence with them except so far as they become convinced that our statements are facts. We have received some complaint from those who believe that the tendency of our articles has been to depress prices. It is hardly necessary for us to say we always write regardless of the market. We have not and never had any interest in a pound of cotton, and desire simply to present what we believe to be the truth, knowing that an artificial depression or inflation of prices is in the interest of no one but a few speculators. What the planter needs and what the consumer needs is stability, and this can only be attained by the most searching discussion which will enable them to distinguish the true from the false. We hope to give expression to facts only; and yet no one need fear that untruths will gain any considerable currency whoever utters them: for the cotton trade is full of the sharpest wit of any trade existing; quick to detect and expose error. Let us then now turn to the question of supply and consumption for 1873, referring our readers to our previous articles for any explanation our figures may

| need.                                                                                                                                                       |                        |          |                             |

In making estimates for the cotton trade, we always consider it best to take the consumption at what we believe will be its maximum upon a full use of the available spinning machinery, with due regard to the character of goods produced; to count in the supply only the probable minimum quantity to be received from each country, with due allowance for the detaining effect of low prices should they occur in the course of the movement. The foregoing estimates are made on that basis. Of the assumed supply none we think will now doubt that Europe will get the 2,450,000 bales from the United States, seeing that on the 3d of January, when there had only been 900,000 bales

exported, there was still afloat of American for Great Britain 204,000 bales, and for the Continent 199,000 bales, which added to the exports of that week from the United States (not included in the European figures), would make (out of the 900,000 bales then exported):

Still aftoat. 474,000
And leaving to be taken out of this crop for the belance of the year to September 1, 1873, say. 1,426,000
Out of next crop, exports up to December 6 (last year 594,000 bales) 550,000

Fotal 2,450,000

This is less than may reasonably be expected, but we prefer to keep our statement of supply an underestimate.

The import from India is taken at 37,000 bales less than in 1871, when the circumstances most nearly resembled those of the present year, except as higher prices now carry-an influence to send forward more of the production, of which an unsually large portion was that year retained because of low prices. That reserve came largely into the import of 1872 with the production of the season, thus making the large aggregate of that import, which so swelled the supply of 1872. The sum of all the imports, other than American, is taken below the estimates prevailing at Liverpool.

The consumption is given at 78,000,000 lbs., or 208,000 bales larger than in 1872, equal to an increase of 4,000 bales per week. The increase assigned to the continent is probable, even without much diminution in price, and notwithstanding the continued tendency there, as well as in England, to the production of lighter fabrics-the effect of which, in reducing the quantity of cotton for a given number of spindles, is far more than is commonly supposed. But that England can exceed, or even equal her consumption of 1872, presupposes a material decline in the price of cotton. In the early part of that year her cotton use was larger than ever before attained. During the year many adversities came; her profits became loss, and the prospect of the cotton industry in Lancashire for 1873 is gloomy indeed. As between the prices of raw cotton and medium or low counts of yarn, there is an adverse change of 1@3d., and then the rise in wages, in coals, in all mill supplies has within a twelvemonth altered the condition for the worse by nearly 1d. per pound of cotton more. Does not the alternative appear to be very clearly presented, of cheaper cotton or stopping splindles? If cotton was dear from scarcity, the latter would necessarily occur, as it did in 1869, when the situation certainly was not worse than it is now. If there is a superabundance of cotton, it seems unnecessary that its consumption shall be diminished by high prices, and the estimate given assumes that it will not be, but rather will be increased by lower prices.

The estimate to October 1, in Europe, corresponding to the end of our cotton year, is as follows:

|                                                                | Supply                                  | •                          | Bales.    | Lbs.          |

| Jan. 1 to October 1, 39 weeks                                  | • • • • • • • • • • • • • • • • • • • • |                            | 4,134,000 | 1,533,700,000 |
| Stock remaining October 1                                      |                                         |                            | 1,486,000 | 539,200,000   |

This supposes the arrival of only about 30 per cent of the import from India to October 1, though the comparative shipments for the first six weeks of this year with the same in 1871 show an earlier and larger movement than in that year. The consumption is rather below the average for the whole year, because that rate cannot be attained in the early months against the existing adversities.

It is obvious that so far as supply shall exceed, or consumption fall below the estimate given, the stock (or

surplus) will be increased at the close of the two periods. If there be a larger supply from this country, and the larger estimates of the supply of other sorts which obtain in Europe are correct; and if the consumption shall not exceed that of 1872, then the surplus held by spinners and the stock in ports at the end of the year in Europe would be much larger.

In the spring of 1871 there was less cotton in the supply, actual and probable, proportioned to the consumption than there is now. Then active business with large profits prevailed; now the greater part of the business in England is profitless, and everywhere the profits are materially reduced. Then middling upland fell to 7d. in Liverpool and 15 cents in New York; now it is 9½d. in Liverpool, and 20½ cents in New York. Then the price fell too low, and was followed by a great reaction on the report of the poor planting in 1871; now, in about seventy days, we shall have the report, good or ill, of the planting, and the "stand" obtained in 1873.

#### FINANCIAL REVIEW OF THE MONTH OF FEBRUARY.

The general trade of the city during the month of February was far from satisfactory, business being greatly interrupted by the impediments to street travel making the transportation of goods difficult.] This evil was intensified by the difficulties of the monetary situation, there having been great stringency throughout. It had been anticipated during the previous month that when the disbursements of interest and dividends incident to the first of January had been distributed the severity of the pressure would be greatly alleviated; this, however, has unfortunately not been the case. There have been several reasons to account for it, prominent among which was the fact that the return of currency from the interior has been on a diminished scale, and even at the close of the month rates of domestic exchange were at s point not admitting shipments this way. Again the city banks during the first half of the month expanded to their atmost in accommodations to their customers, and to such an extent that we find them at the close of the third week \$1,859,850 below the required reserve of 25 per cent. We may add here, however, that at the close of the month this deficit had been brought up to within a tew hundred thousand doilars of the lawful requirements, the deficiency being mainly with the State banks, which are outside of the National law. The Treasury Sinking Fund purchases were only \$3,518,250, though the gold saies amounted to aix millions. This depleted the street of fully \$3,000,000 currency, the U.S. Treasury in the meantime bringing down the legal tenders to \$356,000,000 against \$358,000,000 outstanding on the 31st of January. In addition to these causes artificial infinences were brought to bear upon the market to intensify the closeness resulting from the natural causes above referred to. It is gratifying to note that with money worth a daily bonus of 1.64 to 1 of one per ceut there was no semblance of panic in either commercial or financial circles.

In government bonds a firm market was the rule, and the change in price of 67s, which may be accepted as the standard of the market, has been only one-half per cent, the range being 1164 and 1164. The event in this department was the opening and closing early in the month of the books for subscription to the \$300,000,000 new five per ceuts in London and New York. Full information in regard to the flual result of the Syndicate operations has not been vouchasfed as yet, though that its success was somewhat modified is perhaps evidenced in the fact that the Secretary of the Treasury so amended his original plan of calling \$100,000,000 bonds of 1862, as to call in only \$50,000,000 Toward the close the stringency in money compelled some offer ings of bonds, but these were quickly taken by the fereign bankers.

Railroad stocks were active on speculative operations. The opening week of the month recorded a steady feeling in the general list, despite the great activity in money, and under the partial cornering of the bear speculators in Western Union Telegraph, and the advance in that specialty of about 10 per cent, prices were well maintained. This company sold a portion of its own reserve stock, breaking the price to some extent. This sale was said to be for the purpose of getting means to purchase a controlling interest in the Cuba cable line. The company retained 90,000 shares of its own stock, which it claims the right to sell whenever the interests of the company demand it. Pacific Mail was a feature of the market and held such a position as to render speculation on either side of the account very uncertain. At the close of the month, however, the price, after fluctuating between 76% and 67%, suddenly broke and declined to 55%, though reacting on Friday, the 28th, to 621 at the close, upon the denial of the injurious reports concerning the financial ability of Mr. Stockwell, the president and principal operator. Panama, its tender, declined during the excitement to 95, but rallied to 110. The suddenness of this flurry coming concurrently with the unfavorable monetary outlook, provoked in the rest of the list, for the time being, quite a feeling of panic, under which prices as a rule touched the lowest point of the month, and the general sentiment at the close was rather on the side of a lower basis of

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks during the months of January and February:

The movement in gold, while not especially exciting at any time, was gradually upward, and with occasional reactions eventuated in a rise from 1127 to 1151. There were various local causes, from time to time, entering into the consideration, though as a rule, it may be taken for granted that the rise was due almost entirely to clique manipulation, based in the first place on the modified success of the Syndicate and the amended call of the Treasury; secondly, on the extent of our importations, and thirdly, on the limited supply of available gold on the market. The clique express confidence in their ability to mark up the price to a still high point. On the other hand, the condition of the foreign markets has not warranted the strong speculation, money having ruled easy all over the continent and especially in London, where for the greater part of the month it has been + to 1½ per cent below the munimum Bank of England rate, which was 31 per cent.

COURSE OF GOLD IN FEBRUARY, 1873.

The high rate for gold had the effect of checking the demand from the importers for foreign exchange, and this in connection with tight money gave the market for sterling a weak and unsettled tone. During the month the standard drawers of exchange reduced the rates of their prime sixty days' bills from 109½ to 108½, and of sight from 110½ to 109½. Large operators in stocks in order to tide over the period of active money, borrowed some heavy amounts of sterling and sold the same on the market at a concession, thereby occasioning the reduction. It should be understood, however, that cotton bills have come in freely, thus increasing the supply offering. The closing rates were nominal, as bills could be had materially lower.

From our own correspondent, t

LONDON, Saturday, February 22, 1973.

An easier tone has pervaded the money market during the week, and in the open market the best bills have, in some instances, been taken at rates somewhat below those current at the Bank of England. The bank return which has been published shows that the proportion of reserve to liabilities, which in the preceding return was about 45% per cent, is now nearly 47 per cent, so that an increase of strength is apparent. The slackness in the demand for money is due partly to the fact, however, that, in the previous week, borrowers had more than amply provided themselves, under an apprehension that the bank rate would be raised. Their necessities, this week, have therefore been diminished to a considerable extent. A feature in the return is that there has been a return of about £250,000 in coin from the provinces. For a long period it will be remembered that much astonish. ment was expressed at the very large absorption of cola in the provincial, and especially in the manufacturing districts. Then, that is to say, in the summer and actumn trade was very active, and the working classes were fully and remuneratively employed. Times, however, have changed since then. The price of ceal has advanced to an extent which causes the greatest anxiety amongst manufacturers, and in every direction a desire is shown to curtail production. This curtailment naturally reduces the wages of the artizan class, so that if the return of coin from the provinces should continue, and on an increasing scale, there need be no sar prise. This is, no doubt, in favoret an easy money market, and unless there should be any special demand arising out of circumstances purely financial, there is every reason to believe in lower rather than higher rates of discount. The quotations for money are now a

One of the features of the week is that the price of house coal, which was 52s, per ton in London last week, has been reduced to 42s. per ton. The reduction is considerable, but the quotation is still high. The effect has been to give a firmer tone to the railway market, though the fact seems to have been lost sight of that steam coal is not cheaper. The railway reports issued this week complain greatly of the increased working expenses, arising out of the augmented charges for coal and wages, and there seems to be every probability that before long it will be found necessary to raise the fares both for goods and passengers. It would no doubt be unwise policy to determine upon any great advance, but it is thought that a small extra charge would meet the difficulty, against which directors have to contend, without diminishing the traffic. By that means the proportion of net and gross profits would be increased. So great has been the additional cost of coal that many large manufacturing firms spent £9,000 and £10,000 more last year than in the previous year, to acquire the same amount of steam power; and it was remarked to me the other day by the proprietor of a restaurant of no great dimensions that coal cost him £4 to £5 per week more than in ordinary times. This largely increased outlay affects all classes of the community, and had it not been for the mildness of the winter the suffering must have been prolonged and severe. Fortunately we had no winter weather until the commencement of this month, and I think that seven degrees of frost (Fahrenheit) has been the highest registered in London. The slowness with which the public sales of wool are progressing is due in a great measure to the curtailed operations of the Yorkshire mill owners, who have so much dimlnished their productions as to necessitate much smaller purchases of the raw material; the result being that wool, especially long stapled, which was expected to maintain its value, has receded in price from 1d. to 3d. per pound. Other branches of business are similarly affected.

Unfortunately the strike in South Wales seems likely to be fought out to the bitter end. The men have, indeed, gone to work at Mr. Brogden's collieries, but he has urged upon the men the necessity of a full week's work being given in order that he may fulfil the contracts he has in hand with punctuality. remarked that notwithstanding the great demand for coal last year, the output was 60,000 tons less from his collieries, arising out of the idleness of the men, who could only work three or four days a week. Mr. Crawshay, and Mr. Menelaus and others, however, have intimated that all the injury the men can do them has been done, and that rather than receive a deputation from the Union they will close their works for two years, if necessary. Mr. Crawshay is understood to be a man who keeps his word; but the men have nevertheless passed a resolution that they will not return to work until Mr. Orawshay sends for them, and gives them their terms, even if they have to wait for two years. There is, however, a division between the Unionists and Non-Unionists, and that is the last phase in the affair.

A want of animation has been apparent in the stock markets and the public seem to be operating to a very moderate extent. British railway shares were very dull in the early part of the week, but they have since recovered. Amongst foreign stocks the more prominent feature has been a demand for French scrip, which has risen to 61/262 francs. United States Government Securities have been dull, and are rather lower. Eric shares have, on the whole, been firm, and the tendency as regards other American railway bonds has been favorable. The following were the closing prices of consols and the principal American securities:

Bills on Continental cities have been in demand, and the quota- . tions are less favorable to this country. In the bullion market there has been no important feature. In the gold market, though there are still buyers for Germany, there is no especial move ment, but silver is rather cheaper. Mexican dollars continue very scarce. The following prices of bullion are from the circular of Messrs, Pixley, Abell, Langley & Blake:

| GOLD.                                  |    |      | u.     |
|----------------------------------------|----|------|--------|
| Bar Gold per oz. standard, last price. | 77 | 9%@  |        |
| Bar Gold, fine per oz siandard, do.    | 77 | 4760 |        |
| Bar Gold. Refinable do.                | 77 | 11%@ |        |
| South American Doubloonsper oz.        | 73 | 9 @  | 74 0   |
| United States Gold Coin per oz.        | 76 | 4 @  | 78 416 |
| SILVER.                                |    |      |        |

As the public sales of Colonial wool progress less disposition to buy is daily evinced, and biddings are made with extreme caution—the foreigners purchasing sparingly. A further decline is therefore now submitted to, and we quote prices for Port Phillip fleece and scoured 21d to 3d, and greasy 2d to 21d per lb. lower; Sydney and New Zealand have also declined 2d to 21d per lb. Good snow white Capes and fleece are 1d to 11d, and faulty sorts 11d to 2d lower. The new clip of Port Phillip is in sound and good condition, but in almost every flock the burr is very prevalent

In the state of the corn trade there is very little alteration to notice. There is no activity, but prices are well supported, especially for the better qualities of wheat. Our importations are moderate, but not being in excess of our requirements, there is no accumulation of stock. We have had a week of dry and rather cold weather, and rapid progress has been made with spring sowing. It is believed, however, that the acreage of land under wheat will be below, and that of barley and beans much above the average.

The following statement shows the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the closs of last week, compared with the corresponding periods in the three previous years:

|             | IMPORT     | rs.        |            |            |
|-------------|------------|------------|------------|------------|

At a meeting of the creditors of Messra. Pawson & Co., an offer At a meeting of the creditors of Messrs. Pawson & Co., an offer of 16s. in the pound was accepted; 12s. in cash, 3s. in three months, and 1s. in nine months. It is also proposed to construct a company to carry on the business.

Messrs. Baring Brothers have issued a prospectus of a small loan for £123.800 in 5 per cent bonds for the State of Massachusetts. The price of issue is \$911

atta. The price of issue is 91½.

Messrs. Grant Brothers have announced that they are author-Messra. Grant Brothers have announced that they are authorized to reissue subscriptions to 10,000 shares of £20 each of the River Plate & Brazilian Telegraph Company. The concessions have been granted for terms of not less than 40 years, and the line, which will start from Rio, will connect the Argentine and Uruguayan Republics with the European system of telegraphs. The Transandine system of land lines will also be connected, so that the greater part of South America will be in direct communication with that country. The new line is to be in working order by the 15th of August next. Frankfort.....

#### Philadelphia, Wilmington & Baltimore Railroad .-

(Returns for Fiscal Year ended October 31, 1872.)

The principal event in the history of the Company during 1872 was the completion of their new road (Darby Improvement) between Philadelphia and Chester, which was sufficiently advanced to allow the running of passenger trains since November 18. The cost has been larger than was anticipated; but there can be no doubt of its nltimate value to both through and local traffic. Improvements, by associations, are going on along the whole line.

-Attention is directed to the card of Messrs. W. N. Coler & which will be found in our advertising columns. This firm makes a specialty of dealing in county, township and city bonds, and the head of the firm, Mr. W. N. Coler, who has had long experience as a lawyer at the West, has given his particular attention. tion to this branch of the bond business for about twenty years past. The great attraction about the Western securities is in the fact that they generally pay very high rates of interest, and that when they are in all respects legally issued an action will lie to compel their payment. Messrs, Coler & Co. give their certificate with every bond purchased from them in the words following: "We hereby guarantee that the said bond is a valid subsisting debt against the said municipality, and such a debt as may be enforced at law." Mr. W. N. Coler has just issued a book, comprising two large volumes, treating of the "law of municipal bonds," which gives the general principles of law applicable to them and the particu-Fab. 27—Str. -Attention is directed to the card of the City Bank of London, —Attention is directed to the card of the City Bank of London, which will be found in our advertising columns to-day. The shareholders held their general meeting in London on Tuesday, Jan. 21, at which the directors' report for the half year ending December 31 last was presented, showing gross profits of £68,079. A dividend for the half year, at the rate of 10 per cent per annum, was declared, and £10,000 added to reserved fund from profits and £20,000 premium on 10,000 new shares issued. The paid up capital is now £600,000, and the total reserved fund £150,000.

### BANKING AND FINANCIAL.

#### BANKING OFFICE OF FISK & HATCH.

5 NASSAU STREET.

NEW YORK, March 7, 1873.

The CHESAPEAKE and OHIO, the CENTRAL PACIFIC and WESTERN PACIFIC BONDS, all of which have been negotiated by us, we believe to be among the best and most desirable Invest ment Securities in the market, which in time must become very scarce; especially as the Government will probablypay off, in gold, \$300,000.000 more Five-Twenties during the year, and a large amount of money thus released from investment must find its way into this class of accurities.

The CHESAPEAKE AND OHIO SIX PER CENT. GOLD BONDS, the total amount of which is only \$15,000,000, are secured upon a property worth \$35,000,000 to \$40,000,000, and are fully equal in intrinsic value to the CENTRAL PACIFIC BONDS. They are issued in denominations of \$100, \$500 and \$1,000, coupon or registered, and at their present market price, 871 and accrued interest, are very desirable.

The CENTRAL PACIFIC SIX PER CENT. GOLD BONDS are too well known to require description or commendation. Their total amount is \$25,885,000; they have for a long time ranged in market price near or above par. Their market price to-day is 104@1041.

The WESTERN PACIFIC SIX PER CENT. GOLD BONDS amount to \$2,735,000. This road is now consolidated with the CENTRAL PACIFIC, and the payment of its bonds, principal and interest, is assumed by the latter. As they have recently been introduced on the Stock Exchange, we expect to see them rapidly rise to the price of CENTRAL PACIFICS, being substantially the same in character and value. Coupon Bonda, \$1,000 each. Their market price to-day is 941@95.

We buy and sell, as usual, Government Bonds, receive deposits on which we allow interest, make collections, and conduct a gen, eral banking business in all its branches.

FISK & HATCH.

#### TO INVESTORS.

To those who wish to REINVEST COUPONS OR DIVI-DENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually produc-

The bonds are always convertible at Ten per cent. premium (1.10) into the Company's Lands, at Market Prices. The rate of interest (seven and three-tenths per cent, gold) is equal now to about 8 1-4 currency-yielding an income more than one-third greater than U. S. 5-20s. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the post office address of the owner. All marketable stocks and bonds are received in exchange for Northern Pacifics ON MOST FAVORA-BLE TERMS.

FRIDAY EVENING, March 7, 1873.

The Money Market .- The extreme rates for money on call have shown some relaxation, particularly during the past few days, since the call of the Comptroller was issued to the National Banks for a statement of their condition at the close of business on Friday, February 28. The banks had been expecting this call, and kept their loans well in hand till it should be made naturally desiring to make a good statement; as soon as the call was issued, applying to a day already past, they felt more willing to use their funds, and hence the more abundant supply of money. It is to be noticed, however, in this connection, that while the street rates for money have been somewhat less stringent than last week, the supply of money to leading borrowers ou government collateral has been no larger than before, and this suggests the idea that money from the banks has gone to stock brokers at high rates rather than to the regular borrowers at 7 per cent. In high rates rather than to the regular borrowers at 7 per cent. In a ldition to legal interest the commissions paid for money during the week have ranged from \(\frac{1}{3}\) to 1-32 and 1-64 per day, and to day the rate in the morning was 1-64, advancing later to 1-32, and in the afternoon to as high as \(\frac{1}{3}\), but closing at 1-16.

Prime commercial paper is more active at 9@10 per cent for the very best names. We notice also that there is considerable beachers' paper of forier.

very best names. We notice also that there is considerable hankers' paper offering.

By the public debt statement for March 1, it appears that the legal tender issues have been reduced to \$356,000,000, though it is interesting to note in this connection the Washington telegram of yesterday, stating that Secretary Boutwell considers that he has the right to issue the additional \$44,000,000, when the financial requirements of the country was required.

rial requirements of the country may seem to demand it.

The Treasury programme for March provides for the purchase of \$1,000,000 of Five-Twenties March 5th and 19th, and \$500,000 March 12th and 26th, making a total of \$3,000,000 in all. The gold sales are \$1,500,000 each Thursday, or \$6,000,000 in all. The \$390 000 Three Per Cent Certificates called in on which interest is to cease April 30, leave only \$325,000 outstanding, and these of the denomination \$5,000. In December, 1870, the amount called was \$2,000,000; in the year 1871, \$21,900,000; in 1872, \$17,350,000, and in 1873, \$2,520,000.

Advices by cable continue to be favorable, though the bank of

England loses £188,000 in bullion this week; the Bank of France

gains 3,200 000 francs in specie.

The last statement of our city banks (March 1) showed a reduction of the deficiency below the 25 per cent reserve required by law to \$312,350. The total liabilities were \$229,667,400, and the reserves \$57,094,500.

The following statement shows the changes from previous week and a comparison with 1872 and 1871:

|                           | 1872.            | 1871.            |               |               |

United States Bonds —Government securities have been quite steady on a moderate business; the firm tendency in the gold market has some effect, as usual, in giving a strength to Governments. The Secretary of the Treasury has issued his call for \$50,000,000 of Five-Twenties of 1862, on which interest will cease June 1. This call is made in pursuance of an arrangement with the Syndicate, and we presume it will not be withdrawn. The numbers of the called bonds are as follows:

SECOND SERIES 5-20s OF 1862, COUPON. 
 Denomination.
 Numbers.

 \$50s.
 10776 to 27798

 100s.

State and Hallroad Honds.—Among the Southern State bonds Tennessees have been strong on the prospect that a funding bill of some kind will be passed by the Legislature this seasion. Louisiana bonds are naturally depressed by the political disturbances in that State. Other State bonds are quiet.

In regard to the Alabama & Chattanooga Railroad it is not generally known that after the company went into the hands of a receiver he was authorized by the court to Issue \$1,200,000 of "Receiver's Bonds," or certificates to protect the road and pay its necessary expenses, these bonds luving the preference over all other liens, even brst mortgage bonds. It was made an express condition that the bonds should not be sold below 90, and that they should be sold only for the purposes specified in the order. We believe that only about \$400,000 or \$500,000 of the bonds have yet been issued.

The business in railroad bonds is hardly as large as it was during the first weeks of February, and it is evident that the stringency in money is beginning to have an effect in checking business.

Closing prices daily, and the range since Jan. 1, have been:

^{*} Tais is the price bid, no sale was made at the Board.

Railroad and Miscellaneous Stocks .- The stock market early in the week showed a decidedly bearish tendency, with large sales of Pacific Mail, Western Union, and other prominent stocks. Since Wednesday, however, there has been a better feeling, and prices have recovered materially. There has been much talk during the week about the possibility of further issues of "greenbacks" by the Secretary of the Treasury, and the idea

has not been without effect on speculation.

The annual meeting of the Cleveland, Columbus, Cincinnati & Indianapolis Railroad resulted in the election of a board of directors in the interest of the Eric and Atlantic and Great Western roads.

The election of the Union Pacific stockholders in Boston resulted in keeping the same party in control, with Mr. 1lorace F. Clarke as President.

The market to day was generally strong, and so closed, although prices showed a reaction from the highest point of the day.

The following were the bigliest and lowest prices of the active list of railroad and miscellaneous stocks on each day of the last week;
